

# AquaShield® water bottle system

# Eliminate water bottle reprocessing with the AquaShield® system...

The 24-hour AquaShield® system offers a safe and convenient alternative to reprocessing reusable water bottle systems.

now available with CO<sub>2</sub> connection

AquaShield® system consists of cap, tubing, connector, & 24-hour use sticker

## The AquaShield® system...

- A convenient solution, saving time associated with reusable systems – no need to reprocess or deal with lost/replacement components
- Supports patient safety by reducing the risk of bacterial contamination that may remain in reprocessed systems
- A 24-hour use system - use one for the day and throw it away

For more information on the AquaShield® water bottle system, contact US Endoscopy today.
