# Injection therapy as it should be...

The Articulator™ injection needle from US Endoscopy is a reliable needle, ideal for everyday use and dependable for your most immediate needs. From saline assisted polypectomy, to esophageal varices, ulcers, and tattooing, the Articulator™ needle is the steadfast choice for injection therapy.

## *The Articulator™ needle offers a...*

- *Luer-lock, spring-loaded handle to help ensure the needle is engaged or retracted – reducing the risk of inadvertent scope damage and incidental needle sticks, while providing maximum needle projection*
- *Kink resistant, stainless steel sheath to pass smoothly and perform in fully articulated endoscopes*
- *Stainless steel hub to aid in tamponade and limit needle penetration beyond the mucosa*

For more information on Articulator™ needles, contact US Endoscopy today.

product number	sheath diameter (mm)	length (cm)	needle projection (mm)	needle gauge	units/box
