

Moray™ micro forceps

Distributed by:

listening...and delivering solutions®

Purpose-built to more effectively acquire tissue samples...

The Moray™ micro forceps is designed to enhance sampling from lesions that can occur within and outside of the gastrointestinal tract - leading to a more definitive diagnosis and targeted therapy.

The single-use Moray™ micro forceps features...

serrated jaws that effectively grab tissue

spring sheath allowing for use in tortuous positions

compatible with most 19g FNA needles

For more information on the Moray™ micro forceps, contact your local US Endoscopy representative today.
